

**A9915031 Wireless IP67 Receiver**  
included:

- 3mtr. IP67 DMX connection cables
- 3mtr. IP67 AC connection cables

The IP67 rated wireless DMX receiver box allows for fixtures to be mounted at distances up to 200m from transmitter box and operate a standard DMX signal without any delay. It's possible to connect one wireless DMX receiver box to a group of fixtures that are connected via DMX daisy chain.

**Technical specifications:**

AC input:	90-250VAC 50/60Hz (1A@115VAC / 0.5A@230VAC)
Data rate:	250kbps (max)
ESD protection:	+/-15kV
Output power:	20dBm (Slewrate limited for minimum of EMI in unterminated networks) 25dBm (only in FCC output power mode) 100mW (Slewrate limited for minimum of EMI in unterminated networks) 300mW (only in FCC output power mode)
Freq. range:	2402 to 2479 MHz
Sens @0.1%:	BER -95dBm
ETSL:	EN300 328 & 300 826
EMC:	EN301 489-17
CE:	EN60950
FCC:	UQT-WDMXOEMPCBF
IC:	6812A-WDMXOEM
ARIB:	06215559/AA/00
